

Lessons

Individual lessons

Overview

Below are lessons with exercises to get you in the habit of reading, writing, and speaking English. Don't worry if they feel too easy, one piece of language learning and learning in general is the comfort and satisfaction of the student.

The content will become more difficult, there will be extra bits of information and resources including videos, essays, research papers, and more. These are only for your interest, they are the materials I use to create the educational content. Feel free to ask me about any of it, learning even a bit from these supplementary resources will enrich your learning!
